Revisions

Rev: 07/2004

### USE FOR CATALOG YEAR CHANGES ONLY

This form is for presenting changes to Curriculum Committee; the information will still need to be entered in ECAS.  
Sending this form to Curriculum Committee for Approval means Department and Discipline approval has been received.

Date: 9/4/08

Discipline: Geology

Curriculum Committee Approval Date:

#### Course Revision #1

Give complete UMM catalog entry (deletions in strikethru font, additions underlined)(see instructions)

#### **GEOL 2001 – Natural and Unnatural Geologic Hazards ~~Advanced Environmental Geology (ENVT)~~**

(4.0 cr; spring, offered when feasible)

Examination of the more significant interactions between humans and geologic environments and processes. Earthquake and volcanic hazards, river flooding, mass movements and slope stability, coastal hazards, and water resources and pollution. Lectures and problems sets emphasize the quantitative approaches used to determine the likelihood and frequency of natural hazards, assess associated risks, and mitigate damage.

Rationale (see instructions): Course title is being changed to avoid the ambiguity in use of the term "advanced" that arises because (1) there exists an environmental geology course, (2) no prerequisites are required for the "advanced" course (unusual), and (3) the course is offered at the 2000-level (also unusual for an advanced course).

#### Course Revision #2

Give complete UMM catalog entry (deletions in strikethru font, additions underlined)(see instructions)

Rationale (see instructions):

#### Course Revision #3

Give complete UMM catalog entry (deletions in strikethru font, additions underlined)(see instructions)

Rationale (see instructions):

#### Course Revision #4

Give complete UMM catalog entry (deletions in strikethru font, additions underlined)(see instructions)
